LIGAND FOR CD28 RECEPTOR ON B CELLS AND METHODS

55 South Lake Avenue, Suite 710 Pasadena, California 91101 September 19, 2002

Honorable Assistant Commissioner for Patents Washington, D.C. 20231

Sir/Madam:

## REQUEST FOR CORRECTED FILING RECEIPT

Applicants are requesting correction of the records of the United States Patent and Trademark Office and issuance of a corrected filing receipt for the above-referenced patent application. The Patent Office issued a filing receipt, dated August 28, 2002, which contained an error.

The filing receipt incorrectly describes USSN 08/219,200, filed March 29, 1994 as a divisional of USSN 07/722,101, filed June 27, 1991 as a continuation of USSN 07/547,980, filed July 2, 1990. A photocopy of the filing receipt is provided herein, Exhibit 1 (one page).

An accurate filing receipt should recite that USSN 08/219,200, filed March 29, 1994 is a File-Wrapper-Continuation of USSN 07/722,101, filed June 27, 1991, as a Continuation-In-Part of USSN 07/547,980 filed July 2, 1990. Exhibit 2 (two pages) shows the correct priority data.

Request for Correction of Filing Receipt

Applicant: Linsley et al. U. S. Serial No.: 09/666,267 Filing date: September 21, 2000

Page: 2

シ

Correction of the records of the United States Patent and Trademark Office and issuance of a corrected filing receipt are respectfully solicited.

No fee is deemed necessary in connection with the filing of this Request for Corrected Filing Receipt. However, if any additional fee is required, authorization is hereby given to charge the amount of any such fee to Deposit Account No. 50-0306.

Respectfully submitted,

Sarah B. Adriano

Date Mailed: 08/28/2002

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

## SECOND PRELIMINARY AMENDMENT

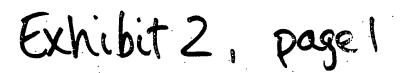

With the entry of this Amendment, and before the first Action in this case, please amend the subject application as follows.

### In the Specification

At page 1, line 1, please replace

"This is a Divisional of application Serial No. 08/219,200, filed March 29, 1994, which is a file wrapper continuation of U.S. Serial No. 07/722,101, filed June 27, 1991, now abandoned, which was a continuation-in-part of U.S. Serial No. 547,980, filed July 2, 1990, now abandoned, which was a continuation-in-part of U.S. Serial No. 498,949, filed March 26, 1990, now abandoned, which application(s) are incorporated herein by reference."

--This is a divisional of U.S. Serial No. 08/459,766, filed June 2, 1995, which is a divisional of U.S. Serial No. 08/219,200, filed March 29, 1994, which is a file wrapper continuation of U.S. Serial No. 07/722,101, filed June 27, 1991, now abandoned, which was a continuation-in-part of U.S. Serial No. 07/547,980, filed July 2, 1990, now abandoned, which was a continuation-in-part of U.S. Serial No. 07/498,949, filed March 26, 1990, now abandoned, which applications are incorporated herein by reference.--

#### In the Claims:

Please add claims 79-88 as follows:

- --79. (new) A method for interfering with binding of a B7 antigen with a CD28 antigen comprising contacting the B7 antigen with a monoclonal antibody or fragment thereof that binds the B7 antigen.--
- --80. (new) The method of claim 79, wherein interfering with the binding of B7 antigen with CD28 antigen prevents B cell interaction with T cells.--
- --81. (new) The method of claim 79, wherein interfering with binding of the B7 antigen with the CD28 antigen reduces T cell proliferation.--
- --82. (new) The method of claim 79, wherein interfering with the binding of B7 antigen with CD28 antigen inhibits T<sub>h</sub>-cell induced Ig production by B cells.--
- --83. (new) The method of claim 79, wherein the monoclonal antibody binds to the B7 antigen and thereby blocks CD28-mediated binding to B7 by at least approximately 30%.--
